

## Dimensional & Symmetrical Cuttings KBr, KCl & NaCl

<u>Item #</u>	<u>Item Name</u>	<u>List Price</u>
<a href="#"><u>0002-7391</u></a>	1/2 pound of 1 cm cubes of KCl	<b>\$479.00</b>
<a href="#"><u>0002-7392</u></a>	1/2 pound of 1 cm cubes of KBr	<b>\$479.00</b>
<a href="#"><u>0002-7390</u></a>	1/2 pound of 1 cm cubes of NaCl	<b>\$484.00</b>

Alkali Halide crystals (KBr, KCl and NaCl) are cubic in structure. They can be cleaved to relatively precise shapes. Applications range from teaching aids to electronics to crystal blanks for polished optics.
