The DM-1 Demountable Cell

The DM-1 Demountable Cell is a low cost, demountable mull cell that is similar in function to the Pres-N-Lok, (0006-2467). It uses smaller inexpensive 30mm x 15mm x 4mm windows. It is ideal for use by students.

The cell can also be used with a single 8mm thick window for fringe free FTIR backgrounds. Inside surfaces are lapped optically flat for leak free seals. The DM-1 comes complete with a stainless steel cell mount, assorted spacers, gaskets and assembly instructions, but without windows.

<u>Item #</u>	<u>Item Name</u>	<u>List Price</u>
<u>0006-194</u>	DM-1 Demountable Cell, without windows	\$112.00
